AMENDMENT TO CASE MANAGEMENT ORDER NO. 1

The deadline to submit a proposed case management order is continued to January 10, 2017. This order should include, along with any other information the parties deem necessary and appropriate, a proposed preliminary discovery plan for general causation and the date(s) scheduled for the Rule 30(b)(6) deposition.

The Court previously required the parties to also include in this filing a proposed settlement master, proposed data analytics firm, and proposed deadline to complete Plaintiffs' Profile Forms. However, individual deadlines have since been set for each of these items in light of the progression of the litigation. The subsequently set deadlines control.

The Third Case Management Conference has been rescheduled for March 1 and 2, 2017. On March 1, 2017, the Court will hold the Case Management Conference, as well as an evidentiary hearing, if necessary, or oral argument on Otsuka Pharmaceutical Co., Ltd.'s motion to dismiss. Additionally, on that date, the

Court will hear a presentation from BrownGreer PLC or other data management firm. Science Day will take place on March 2, 2017.

DONE and **ORDERED** on this 22nd day of December, 2016.
