DISCOVERY CONFERENCE ORDER NO. 9

At the parties' request, the Court held a discovery conference call on April 10, 2017. This Order serves to memorialize the key topics of discussion during the call, including any agreements of counsel and orders of the Court.

Before the next discovery conference call, which is scheduled for Wednesday, April 12, 2017 at 3:00 p.m. (CDT), Defendants should endeavor to submit to the Court an estimated timeframe for how long it will take them to consult with their clients and produce (a) a list of the 132 clinical trials identified by Plaintiffs for which the data is regularly stored in SAS format and (b) a list of all human trials conducted with respect to all formulations of aripirazole.

If, after receiving the line listings of the search results for the Adverse Event Database, Plaintiffs believe they will not be able to meet the expert report deadlines,

they should also submit briefing in advance of the next discovery conference call on April 12, 2017.

DONE and **ORDERED** on this 11th day of April, 2017.
